THE CATTLE WERE LOST

Molokai Still a
Source of
Trouble.

The regular monthly meeting of the Board of Health yesterday was attended by all members but Wm. Auld. The Iwilei wash houses and the usual trouble with palai formed the principal topics of discussion, and the meeting was quite brief.

MORE TROUBLE WITH KALUA.

Supt. Reynolds reported that Judge Kalua had shipped another lot of palai without orders, and it was liable to spoil on their hands, unless it could be forwarded to the settlement immediately. Mr. Reynolds stated that he had notified Mr. Kalua that he would not be paid for the shipment, and warned him not to send any more palai except on the express order of the Board of Health. The board decided that in case the palai was damaged no allowance would be made for it, and the secretary was instructed to send Judge Kalua a letter notifying him to obey instructions implicitly as the Board of Health would not be responsible for any acts done without its order.

CATTLE WERE LOST.

The Wilder Steamship Company reported the loss of four cattle on the Helene, which were billed for the Ieper settlement. The captain stated that the Helene arrived at Waikolu with 25 cattle and endeavored to land them, but was prevented because of the northerly gale. Two boat loads of 22 got a footing on the beach, but one of the cattle was killed in the surf and another swam out to sea. Two cattle landed on a rock, and it may be necessary to shoot them. Finding it impossible to land, the remainder of the cattle were brought to Honolulu and placed in the cattle pen, one dying en route. The Board of Health took no action on the matter, Supt. Reynolds having already sold the cattle.

BOYD WANTS TO HELP.

A letter was read from Supt. Boyd of the Department of Public Works enclosing the report of Engineer Gere upon the Iwilei wash houses. Mr. Boyd stated that he had delayed answering until all plans had been prepared for making the necessary improvements, and the work would be done immediately. He said further that he would do all in his power to assist the board in improving the sanitary condition of the town, but that because of the condition of the Territorial treasury he could not do as he wished in the matter. He expressed a desire to work in harmony with the Board of Health wherever possible. An opinion was asked also as to the advisability of removing the garbage dump from Iwilei, but upon the report of Executive Officer Pratt, that the garbage was being burned, it was decided not to insist upon a change of location at this time.

The committee appointed to investigate conditions at the public wash houses was not ready to report, and further time was given.

FISH MARKET AT HILO.

Sanitary Inspector Bowen of Hilo reported that he had received an application for the establishment of wholesale fish market at Waiakaka, and thought that it was advisable to allow the desired permission, as the Hilo market could not accommodate everyone. There was some question, however, as to the ability of the fish inspector to take care of more than one market, and also as to the law in regard to the market. It was decided to write to C. C. Kennedy and get an expression of opinion as to the desirability of another market in Hilo.

OTHER MATTERS.

The Hilo inspector asked also that he be given the power to grant building licenses, but the board has no such authority, and nothing was done in the matter.

W. L. McConkey, government physician at Makawao, Maui, reported that he intended to take a month's vacation and asked that C. A. Peterson be appointed during his absence. This recommendation was followed by the board.

A communication was received from Treasurer Wright, enclosing a letter from "Prof." Sterling, who wanted a license to practice palmistry in the Territory, and inquired what the rules and regulations here were. He said he was conducting a successful school at Stockton, Cal., and thought he might astonish the Hawaiian natives, though he insisted in his letter that he wasn't a "fortune teller." President Sloggett said he knew of no regulations which gave the board permission to license such "practitioners," and the matter was referred back to Treasurer Wright, who will have to settle his own troubles.

Editor Advertiser—I see you take great interest in Molokai. What you talk about amounts to nothing in regard to us. The matter is in politics as they must know. Your motive is well understood by them. You talk like the Lazaretto on Molokai were inhabited by saints. If so, they have been reincarnated since I was there two years ago. They were anything but saints then. Sincerely yours,
MRS. TODD.

Influenza is always more or less prevalent at this season of the year. This disease is very similar to a severe cold and if allowed to take its course is liable to cause severe results. The best treatment for influenza is to avoid exposure and take Chamberlain's Cough Remedy. This medicine gives immediate relief, and if used as directed, will ward off all dangerous consequences. It leaves the system in a natural and healthy condition. It always cures and cures quickly. Benson, Smith & Co., Ltd., wholesale agents, sell it.
